Jaison Thomas

Product Designer

A product designer with 4+ years of experience in designing for B2B SaaS and B2C products, specialised in designing desirable products in midst of complexities and ambiguity.

WORK EXPERIENCE

MoEngage Inc. (B2B SaaS) / Product Designer (Rehired)

Aug 2024 - Present

Owning the product experience of two most complex products in MoEngage: Flows and Data.

- Designed key 0-1 AI features that enhanced automation capabilities for global customers and successfully revamped key existing features.
- Conducted research activities such as heuristic evaluation, usability testing and helped prioritise critical pain points.
- Defined MoEngage AI Design principles, setting the foundational guidelines for future AI feature development across design team.
- Improved internal design processes by helping the team define and measure design impact, fostering a data driven UX.

MagicBricks / Product Designer

Jan 2024 - Aug 2024

Designed MagicDiary (Site visit product) end to end from 0→1 conducting field research, identifying key user pain points, prioritizing problems, and designing the Site Visit Tool.

- Enabled over 50,000+ site visits through the product and reduced buyer decision-making time by 50%, driving significant business impact.

Futurestar / Founder

Aug 2023 - Dec 2023

Built 500+ member community of students, teachers and parents, and conducted career talk sessions by coordinating top professionals from various industries. Conducted elaborate user research, designed and tested solutions, created brand guidelines, GTM strategy, and launched programs. Shut the project down due to lack of revenue potential.

MoEngage Inc. (B2B SaaS) / Associate Product Designer

Jan 2022 - Aug 2023 (Fulltime after PPO)

Major high-impact projects include:

- Testing of flows (first in industry): Designed an experience for testing customer orchestration journeys. Achieved a rating of 4/5.
- Flow analytics: Revamped the analytics experience in MoEngage Flows. Helped marketers gain quick and out-of-the-box insights.

EDUCATION

IIITDM, Jabalpur / Master's Degree, Design

Aug 2020 - May 2022

FISAT, Angamaly / B.Tech - Mechanical

Aug 2015 - May 2019

ACHIEVEMENTS

Won 'Most distinguished UX/UI research paper' award

International Conference on 3rd Innovative Product Design and Intelligent Manufacturing Systems
Design Department, NIT Rourkela
Dec 2021

PORTFOLIO
